The Screw Shaft Survey became due in February, 1936 and a proposal to postpone this inspection until the next drydocking in 1937 was approved.

The Special Survey No.1 became due in February last, and from communications which have been received from the Society's Surveyors at Shanghai it now appears that the Owners do not desire to continue the vessel's classification with this Society.

In the circumstances the Committee, who had the case before them on Friday, 4th instant, have decided to give instructions for the vessel's character to be withdrawn from the Register Book and Three Dots (...) inserted in lieu thereof, indicating withdrawal of class at Owners' request.

10th June, 1937.
