Dear Mr Carey ,

In reply to yours of yesterday's date regarding the Standard "A" Class Engines Nos. 27018/9 commenced by Messrs Robey & Co. , of Lincoln , and transferred to The Lilleshall Engineering Co. , I regret you were not informed that the two sets of Engines referred to were despatched to Messrs Caird & Co. Greenock , for completion . Very little work was done at Lilleshall on these Engines and all the Grimsby documents which we received together with a list of work done at Lilleshall was forwarded to the Greenock Surveyors .

I enclose a copy of a letter sent to the Greenock Surveyors .

Caird's numbers may be different to Robey's .

Kind Regards ,

Yours sincerely ,

*P. F. Norton*
