QUESTION.	ANSWER.
-----------	---------

Date:— 28-12-31.

With reference to your memorandum of the 19th October last I shall be glad to learn as this vessel appears to have left Lisbon on the 11th instant, how this case now stands.

Sand

On the 26th inst. the Supt. Engineer was interviewed and he stated that it is possible the survey may not be further advanced until May 1932. The vessel is making three "quick-turn-round" trips to S.America and Africa, there being thus no time in this port for survey.

All the materials for repairs &c have already been received at the Company's stores.
