

COPY.

4th September, 1931.

LISBON.

"MOCAMBIQUE". With reference to your letter of the 24th ultimo I have to inform you that the results forwarded of the drillings of the shell plating will be approved provided all plates below the sheerstrake within the half length amidships on port and starboard sides worn to below 17/40" and all plates at the extreme ends worn to below 14/40" be renewed and the shell plating at the after end drilled and found satisfactory.
