LONDON

, Scullard.
ENGINEER SURVEYOR.

T.S.S."MOÇAMBIQUE".

Dear Sir,

I have to acknowledge your letter of the 21st. inst. with reference to the classing survey of the above named vessel and I note that you have received the duplicate set of plans from the shipbuilders.

I now enclose two sets of drillings taken so far. The after plating was not drilled as the vessel had to undock but is expected to redock shortly, when this will be done.

The waterline plating was drilled by the owners who are preparing a list of repairs to the vessel, which includes the renewal of several side and bow plates.

The thicknesses of the after plating will be sent as soon as this is drilled.

I am, Dear Sir,

Yours faithfully,

G. J. Scullard

The Secretary.

LONDON.
