26th January, 1921.

Dear Sirs,

H.

I have to acquaint you that the steamer "LORD BROUGHTON" ex "PATMOS" was recently classed 100A1 with records of S.S.Nwc. No.3-12,20 and LMC.12,20, as the result of a survey held by the Newcastle Surveyors.

The Master has now called at this Office and stated that the vessel has lost her third bower anchor and that a new anchor will be obtained and sent to Cardiff to be placed on board in about a week's time. He was informed for his guidance that the equipment letter of the vessel is "S".

I shall be glad if you will give the matter the necessary attention in due course.

I am, Dear Sirs,

Yours faithfully,

Secretary.

The Surveyors,

CARDIFF.

P.S. I may say that the records assigned by the Committee in this case will be posted in the Register Book as soon as the fees for the classification survey have been received.
