Dear Sirs,

E.

I return herewith the preliminary first entry machinery report and boiler plan forwarded with Mr. Murdoch's letter of the 5th instant in the case of the S.S. "PATMOS", which vessel is now undergoing survey at your Port with a view to classification with this Society, and with regard thereto I have to inform you that provided the pumping arrangements be found to be in accordance with the requirements of the Rules, the machinery will in this instance be accepted for the original working pressure of 175 lbs per square inch and a notation of LMC (with date) but without the distinguishing mark * assigned.

I am, Dear Sirs,

Yours faithfully,

The Surveyors,

NEWCASTLE-ON-TYNE.
