

Messrs. De Groot & Van Vliet's No.219.

Plan of stern frame and rudder submitted, in duplicate, by the Rotterdam Surveyors.

It is submitted the Surveyors be informed that provided the arrangements be carried out as shewn and amended and to their satisfaction, they will be approved.

On account of the rudder plate being welded on the outside edge only it is considered that intermediate diaphragms should be fitted as indicated on the plan. As in previous cases the Owners' consent should be obtained to the proposal to make the connection between the separate sections of the stern post by electric welding.

28.3.38.

Ltr. 17. 3. 38.
Asd. 28. 3. 38.
1 plan 1 retained.
