

# Lloyd's Register of Shipping.

Imperial House,

Donegall Square East,

Belfast, 11th Sept. 1940.

Dear Sir,

We have been advised by the Glasgow Surveyors that a  
 Berdam has been formed between Nos. 1 and 2 Double  
 Bottom Tanks forward (Glasgow Report No.62797) and requested  
 to inform you of the consequent reduction in the double  
 bottom capacity.

This has been stated by the builders to be  $4\frac{1}{2}$  tons so  
 that the amended capacity forward will now be 176 tons and  
 total capacity to be shown in the Register Book. 351 tons.

I am, Dear Sir,

Yours faithfully,

*E. R. Edgar*

Secretary,  
 Wokingham.
