

COPY.

ENCLOSURES.

21st January, 1918.

Dear Mr. Warlow,

I think it well to return herewith the First Entry Reports on the three steamers "ARDGOIL", "ARDGAY" and "MAHSUD", in the case of which I observe you have given a notation of "fitted for oil fuel F.P. above 150° F. in double bottom." The record which is appearing in the Register Book in all these cases is: "Carrying fuel oil F.P. above 150° F. etc.", and I am sure that you would like your Minute to correspond with the general practice.

I take the opportunity to enclose herewith copies of letters which I have addressed to the Greenock Surveyors as regards the requirements of the Specification in these cases.

With kind regards,

Yours faithfully,

P.L. Warlow, Esq.,  
GLASGOW.
