The Second Special Survey No.2 which became due in August last, has been partly held, and a proposal to postpone the completion of this inspection until March last was agreed to by the Classing Committee.

A letter has now been received from the Society's Surveyors at Kobe enclosing a translation of a letter addressed to them by the New Owners, intimating that the vessel is now under Japanese registration and that they have decided not to continue the vessel's class in the Society's Register Book.

The Classing Committee had the case before them on Friday, the 1st instant, when they decided to give instructions for the vessel's character to be withdrawn from the Society's Register Book and Three Dots (...) inserted in lieu thereof, indicating withdrawal of class at Owners' request.
