The Boiler Survey became due in this case so long ago as July, 1937 and the Screwshaft Survey in September last.

This vessel has been laid up continuously for nearly two years, and action in respect of the overdue surveys has consequently been deferred.

The Society's Surveyors at Liverpool, however, now forward a letter, dated 16th instant, received from the Owners, in which it is stated that they do not intend to maintain the vessel's classification with this Society.

The Classing Committee had the case before them on Friday, 27th ultimo, when they decided to give instructions for the vessel's character to be withdrawn from the Register Book and Three Dots (. . .) inserted in lieu thereof, indicating withdrawal of class at Owners' request.
