

SS. "Honolulu Maru."

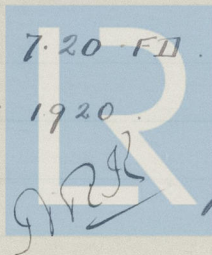

This vessel has been fitted with second hand engines & boilers taken from the wrecked steamer "Poltava"

These engines & boilers which were built by Messrs F. Schichau of Elbing in 1909 under special survey have been opened up, examined and repaired as necessary.

One boiler furnace two intermediate shafts and the thrust shaft have been renewed & the boilers found satisfactory under hydraulic test.

It is submitted that
this vessel is eligible,
