ENCLOSURES

S.

Dear Sir,

I am in receipt of your letter of the 7th instant, respecting the dis-classed Trawler "VIROS," and in reply to your enquiry have to say that to entitle the vessel to re-classification the provision of the rules for Steel Trawlers for a 3rd Special Survey will be required to be complied with including the drilling of the shell plating.

For the purpose of reporting the drillings two forms are enclosed.

As regards the question of fees to be charged, the general practice for re-classification surveys in this Company is to charge twice the rule fee for a 2nd Special Survey No.3., but this does not apply to Trawlers, in which cases the ordinary fee for a Special Survey No.3 is charged.

In the light of the above remarks the question of the fees in this case is left to your discretion.

I am, Dear Sir,
Yours faithfully,

Clerk to the
Classification Committee.

S. Townshend, Esq.,
GOTHENBURG.
