SJØFARTSBYGNINGEN

Lloyds Register of Shipping,

Oslo.

S/S. "Sir James Clark Ross".

The Owners of this vessel are contemplating altering the boilers to be oil fired instead of as present coal fired and must therefore carry a large quantity of fuel oil in the present tanks. In view of this we take the liberty of referring to your approval in letter of 28th of April 1927 of the two aftermost tanks being converted to carry oil fuel in bulk and shall be pleased to know that the other tanks will be approved when they are similarly strengthened. We should also be grateful to know if the present coal bunkers are originally built for carrying fuel oil.-

Awaiting your reply by return, we remain

Yours faithfully *Arnessen Christensen & Smith*

P.S.

We enclose plan of bulkheads which please return after perusal.

Answd. 22/3.
