ANS^d 13 SE 7 1923

Dear Sirs,

S/S " SIR JAMES CLARK ROSS " .

Referring to your telegram of today to your surveyors at Kristiania regarding the trimming hatches in the upper deck of above steamer, we beg to enclose herewith plan showing spacing of the hatches and also drawing showing details of same.

We hope you will accept the arrangement and the height of coamings proposed, as a greater height of coamings will render the whaling work on deck difficult.

We beg to point out, that we have reduced the dimensions of the hatches, same being 4'-0 by 4'-0 instead of 4'-0 by 6'-0 as originally intended.

As this matter is a very pressing one, we have taken the liberty to write direct to Your goodselves, as

agreed upon with the surveyors at Kristiania.

Awaiting the favour of your telegraphic
decision, we remain

Dear Sir,

Yours faithfully
