"SIR JAMES CLARK ROSS" ex "HARRONDA".

PRESS WHALE OIL BOILERS.

SURVEYOR

CHRISTIANIA

24.5.23

A plan of whale oil boilers, recently approved
in the case of the S.S. "HARRONDA", is submitted for
SIR JAMES CLARK ROSS EGBWYERTAG EBERDEJOSO
EGBWYERTAG EGBWYERTAG EGBWYERTAG

The Makers state they have received materials for
these boilers, and therefore desire to have the end plates
approved as in the case of the S.S. "HARRONDA".

It is submitted that as in the previous case the
material might be accepted, provided the results of the
tests are satisfactory, and the thickness of the end plates
might be approved.

Further, the plan of boilers needs approval for a
working pressure of 60 lbs. per square inch, provided the
boilers be constructed under the usual conditions of
survey and testing.

Enclosed 2 copies of each plan
and 1 copy for reference.
