Dear Sir,

I enclose herewith copy of letter of even date
addressed to Messrs. Osaka Iron Works in connection with above.

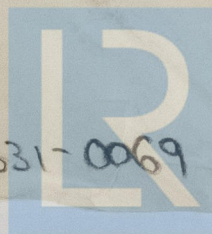

The data for the Engines was given in my letter
of 14th April to Kobe Steel Works, but an error was made in
the weight of the flywheel which is 10,300 Kgs. or 10.137 tons.

One copy of each of the three plans are being
forwarded under separate cover.

I am, dear Sir,

Yours faithfully,
