The Second Special Survey No.2 which becomes due in August next, has been partly held; the Boiler Survey became due in February last.

A letter has now been received from the Society's Principal Surveyor for the Far East, enclosing a copy of one received from the Owners, intimating that 'Owing to their circumstances' they have decided to withdraw her from the Society's class, and re-class her with the British Corporation.

The Classing Committee had the case before them on Tuesday, the 18th instant, when they decided to give instructions for the vessel's class to be withdrawn from the Society's Register and Three Dots (. . .) inserted in lieu thereof.
