The Boiler and Screwshaft Surveys became due in the case of this vessel in September, 1938 and at the end of last month respectively.

In reply to enquiry the Society's Kobe Surveyors now forward a copy of a letter received from the Owners, in which it is stated that they no longer desire to maintain the classification of the vessel with this Society.

The Classing Committee had the case before them on Tuesday, 4th instant, when they decided to give instructions for the vessel's character to be withdrawn from the Register Book and Three Dots (. . .) inserted in lieu thereof, indicating withdrawal of class at Owners' request.

6th July, 1939.
