A letter has now been received from the Society's Principal Surveyor for the Far East, enclosing a copy of one received from the Owners, intimating that in view of the fact that these vessels are now mainly engaged in coasting service only, they have decided to withdraw the vessels from this Society's Classification.

The Classing Committee had the cases before them on Tuesday, the 28th instant, when they decided to give instructions for the vessels' characters to be withdrawn from the Society's Register Book and Three Dots (.:.) inserted in lieu thereof in each case, indicating withdrawal of class at Owners' request.
