PORT OF BARCELONA *30 Sept* 1912

CALLE DE MAILLORCA, 259

Steamer Infanta Isabel.

Electric Lighting — I was on board three times the last a couple of hours before she sailed but the installation was not completed and was not looking in a satisfactory manner — The chief electrician fitter who came out from Glasgow with her sailed in her for Buenos Aires and when there will try & get everything into shape so that it may be seen & passed on her return to this port. 4
