LLOYD'S REGISTER  
GLASGOW

10-JAN-1912

ANSP

Dear Sirs,

T.S. Contract No. 572/3.

Main Boiler:- Please note that we intend to dispense with the 9" x 6" handholes in after end of double ended Main Boilers, and to alter the 16" x 12" manhole at present between centre furnaces in forward end, to after end. The 16" x 12" manholes between centre and wing furnaces remain in forward end as marked on plan. The arrangement of end manholes now is therefore 2 at 16" x 12" in forward end and one at 16" x 12" in after end, and these the only doors except on shell. We presume that this is all in order.

Yours faithfully,

For DAVID ROWAN & CO.
