

Received by Chief Ship Surveyor

Received from Chief Ship Surveyor

VESSEL'S NAME

At St. Saint Michel

Rpt.

R. 1

No.

8244

The remarks of the Chief Ship Surveyor are desired on this case for the consideration of the Classing Committee.

("The endorsement to contain a succinct summary of any repairs that have been required and to show the cause or causes of such repairs, and also to bring out clearly any exceptional features in connection with the case, so that the Classing Committee may have all the salient points presented in the endorsement."—Extract from Sub-Committee's Report, 24/5/92.)

Nature of Survey

First entry

It is submitted that before this case receives the consideration of the Committee the Hull Surveyors should be informed that this vessel is proceeding to their port, where her Machinery is to be fitted by Messrs. Earles Shiping and Engineering Co. Ld., and that in order to complete the survey on the hull the tunnel top plating requires to be riveted and caulked, the Engine and Boiler Casing to be riveted up, and pillars to be fitted in the Engine room where practicable.

They should be requested to give the case the necessary attention, and on completion of the work forward a report on Form 8 with a view to the classification of the vessel.
