The Screwshaft and Boiler Surveys became due in the case of this vessel in February and April last respectively.

In reply to enquiry the Society's Surveyors at Kobe now forward a letter from the Owners, stating that, owing to their circumstances, the vessel has been classed with the British Corporation, and that consequently the overdue surveys will not be carried out.

The Classing Committee had the case before them on Tuesday, 4th instant, when they decided to give instructions for the vessel's character to be withdrawn from the Register Book and Three Dots (. . .) inserted in lieu thereof, indicating withdrawal of class at Owners' request.

6th July, 1939.
