The Boiler Survey became due on this vessel at the end of January last.

A letter has now been received from the Society's Paris Office, stating that she has been sold to the French Admiralty, who intend to use her either as a pontoon or as a ship for coasting purposes.

It is not the usual practice to retain the classification of vessels taken over for naval purposes, and in the circumstances, the Classing Committee, who had the case before them on Tuesday, 6th instant, decided to give instructions for the vessel's character to be withdrawn from the Register Book and Three Dots (...) inserted in lieu thereof, indicating withdrawal of class at Owners' request.
