S.E.

Dear Sirs,

S.S. "WILLESDEN".

We are in receipt of your letter of the 13th instant, enclosing Certificate of Classification in connection with the above vessel, which we thank you. We regret that we were unable to ask you for a copy of the Boiler Certificate for the survey carried out in November, 1941, and we shall be obliged if you will let us have this at your convenience. We note that no Seaworthy Certificate was issued in January, and we presume that nothing happened in the meantime calling for a Certificate to be issued at a foreign port.

Yours faithfully,

For WATTS, WATTS & CO., LTD.

I. Davies
ENGINEER SUPERINTENDENT.
