BERKS.

Dear Sirs,

S.S. "WILLESDEN".

We regret to advise you that this vessel is considerably overdue, and we are advised by the Admiralty that she must be considered lost. No definite information is to hand regarding the circumstances of the vessel's loss, but in this connection we should be obliged if you will let us have particulars of the latest classification and any seaworthy certificates issued to this vessel as we are asked to produce these by the joint Arbitration Committee for their purposes when the case is presented to the Arbitrator, who will determine whether the loss is due to Marine or War perils.

Yours faithfully,

For WATTS, WATTS & CO., LTD.

ENGINEER SUPERINTENDENT
