Carrying Petroleum in Bulk.
 Fitted for Oil Fuel 1.22 F.P. above 150° F.

Box

The 2nd Special Survey No. 1 became due in March 1939, when the Owners requested that they might be allowed to postpone this inspection until the expiration of the year of grace.

This request was agreed to, as the result of a General Examination made of the vessel at Bergen in March 1939, but the Owners, writing under date of the 12th ultimo, now state the vessel is classed with the Norske Veritas, and that they, therefore, desire to discontinue classification with this Society.

The year of grace expired at the end of last month, and in view of the fact that the Owners do not intend to have the Survey carried out as previously proposed, the Classing Committee who had the case before them on Tuesday, 2nd instant, decided to give instructions for the vessel's class to be expunged from the Register Book with a Red Line (440), indicating non-compliance with the Society's Rules.

4th April, 1940.
