REC'D 17 JUN 1907

ANS'D 21/6/07

your cable of the 5th inst duly to hand, and, as requested, I herewith
under separate cover, the approved plans, which I have just received
New York, for the vessel No44 (S.S. "W.S. Porter"), nine in number;-

- | | |
|--------------------------------|-------------------------------|
| (1) Midship Section. | (2) Longitudinal Section. |
| (3) Rudder Plan. | (4) Fore Peak. |
| (5) Athwartship Oil Fuel Tank. | (6) After Peak. |
| (7) Side Oil Fuel Tank. | (8) Hold Stringer & Main Dk . |
| (9) Stern Frame. | |

I was under the impression that copies of these plans were in the
office, as that was the information I received from Mr Stanbury, when
they were first submitted.

It is the custom here for the Builders to submit three copies of
each, one for the London Office, one for the Builders (which has been
with the Official Stamp), and one for the Local Office, the latter
forwarded to London, but all the alterations and amendments made on
them are submitted to London.

With reference to the fees on the above vessel, the Builders, who
fees, have written me, that they are not correct, and upon enquiries
New York, I am informed that arrangements were made when the vessel was
ordered for, that the fees were to be in a lump sum, that is including all
testing material, expenses, examining vessel under construction etc;
upon instructions from Mr Mancor, I am going to see the Builders and
if they will not allow something for the expenses for travelling, as

the Surveyor was, at the time the arrangement was made, stationed at Newport News; after I have had a consultation with the Builders, I will inform you as to what the result is.

Your cable of the 25th May duly to hand, re the proposed vessel "Estimate No 656", Newport News S.B. & Dry Dk Co., I beg to state that I have asked the Builders to furnish plans ~~embodying~~ embodying the alterations etc, and same will be forwarded to you on my receiving them.

Your obedient Servant.
