Lloyds Register of Shipping,
BELFAST.

Dear Sirs,

No. 467

We beg to inform you that with regard to the above vessel only having six watertight bulkheads, we received on the 18th September last a letter from the owners representatives, Messrs. Esplen & Sons Ltd., Liverpool, from which the following is an extract:-

"With reference to your letter of the 9th inst. we have
"to advise you as follows:-
"Watertight Bulkheads - In view of your remarks in your
"letter of the 11th inst., that the vessel will be placed
"in Lloyd's highest class, we have decided to keep to the
"original arrangement as regards watertight bulkheads,
"viz: 6 watertight bulkheads and No. 1 bulkhead on frame
"122 non-watertight"

We would request that when inserting the number of bulkheads in the register the vessel be given the benefit of a notation indicating the fitting of topside tanks.

We shall be glad to learn that this matter is now in order.

Yours faithfully,
pro WORKMAN, CLARK & CO., LIMITED.

I have been out of Brazil since last November of 1961 and
 returned about the 1st of December of 1961, spending the winter in
 Rio de Janeiro. However, I have not yet been able to find a
 suitable place to live in Rio de Janeiro, and I am still
 staying in the hotel where I was when I first came to Rio de Janeiro.
