

12 DEC 1930

s. s. "SUND".

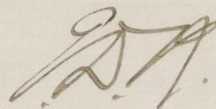

The vessel was built in 1927 and classed with the Germanischer Lloyd.

With a view to classification the machinery has been opened up and examined throughout, found in accordance with the approved plans, and satisfactorily reported upon.

In the boiler there are a few stays of "Thomas" steel and as this material is not approved by the Society, arrangements have been made for these stays to be replaced by stays of approved material at the first opportunity.

IT IS SUBMITTED the vessel is eligible for the record LMC 11,30 subject to some screw stays being renewed at the first opportunity.
