Residence

The Secretary,

London,

Dear Sir,

In reply to the inquiries in the classification letter of 21st March relating to Kobe Report No. 2414 on the steamer "TOFUKU MARU" I have to state that the collision bulkhead extends to the Awning deck and that the butts of E strake are quadruple riveted and also that the rivets in the butts of B.C.D and E strakes are $7/8$ " diameter and $3\frac{1}{2}$ " spacing.

It is regretted that these particulars were omitted from the report.

I am, Dear Sir,

Yours faithfully,

A. L. Jones
