VESSEL'S NAME Wood Barge "Alice"

Report Ron

No 70563^a

For the CHIEF SHIP SURVEYOR and CHIEF ENGINEER SURVEYOR

(In cases which have to be submitted to the Classing Committee "the endorsement to contain a succinct summary of any repairs that have been required and to show the cause or causes of such repairs, and also to bring out clearly any exceptional features in connection with the case so that the Classing Committee may have all the salient points presented in the endorsement." - Extract from Sub-Committee's Report, 24/5/92.)

Nature of Survey

Caulking

When due

1907

This vessel became due for caulking last year.

The Owners now state that it is quite unnecessary for their purpose to have the Barge classed in the Society's Register, and they therefore do not intend to prepare her for inspection by one of the Society's Surveyors.

It is submitted the vessel's class be omitted from the ensuing reprint of the Register Book.
