The S.S.No.1 became due on this Steam Trawler in March 1908, and was partly held in September 1908.

To complete the survey the bunkers and machinery space require to be scaled and coated and the steering chains overhauled. The machinery survey has been completed.

A letter however was recently received from the Owner, stating that he did not intend to continue the classification of the vessel in the Society's Register.

The case received the consideration of the Classing Committee on the 26th March, and it was decided to withdraw the vessel's class from the Register Book, and to insert three dots (...) in lieu thereof, indicating withdrawal of class at Owner's request.
