-----:-

The Boiler Survey of this Cuban steamer became due in March last.

The vessel has recently changed hands, and the Newcastle Surveyors report that on visiting the vessel in dry dock they were informed by the new Owners that it was not their intention to continue her classification with this Society.

The case received the consideration of the Classing Committee on the 23rd instant, when it was decided to withdraw the vessel's class from the Register Book and to insert three dots (...) in lieu thereof, indicating withdrawal of class at Owners' request.
