

POSTPONED SURVEYS.

Case of the *Steel 4^o Balsense*
 No. *112* in Reg. Bk. *48/21* tons, Built *1912 - 7ms*
 Classed *100A* Owners *Cia de Pescarias Balsense*
for fish purposes *7.12* Port of Registry *no Algarve*
thru 7.12
 Survey due *Screw shaft survey due July 1914.*

The usual preliminary notices were sent to the Owners respecting the above survey but failed to receive a reply. A further letter was written to them on the 14th January which also failed to elicit a reply and in the circumstances the Committee decided that the Owners should be informed that unless the survey were held at an early date, the vessel's class would be dealt with.

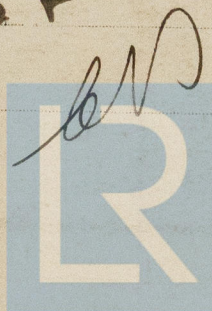

The Owners now write that the vessel only calls at the ports on the Algarve coast between Guarteira and Vila Real de Santo Antonio, where the survey cannot be carried out as there are no Surveyors to the Society stationed in the district.

The Owners state, however, they will give instructions for the Committee's Minute
