Dear Sir,

We are in receipt of your letter of the 19th. January last, but have not received yet the other letter of the 14th. January referring to the inspection of the screw shaft of the steamer "Balsense."

Our steamer "Balsense" only calls at the ports of Algarve coast between Guarteira and Vila Real de Santo Antonio where the inspection in question cannot be carried out because there are no experts; but in case the said steamer at any time goes to any port where an inspector is stationed, then we shall give instructions for carrying out the inspection and shall let you know the results immediately,

Yours faithfully
