

Steel Barge "B.H.C.No.12".

It is submitted that before this case receives consideration Mr.Wright should state explicitly whether he is satisfied that the workmanship is good and efficient and such as to render the vessel eligible to beclasssed #100A- "Hopper Barge".

It may be observed that in a similar vessel built by the same Builders "B.H.C.No.13" for the same Owners a considerable amount of unsatisfactory work was found upon her delivery in October,1913.
