

Motor Barge "EVELYN HOPE"

Rudder and Quadrant

A letter has been received from Messrs. Gray & Hunter stating that it is not possible to fit a spare tiller on account of the obstruction of the after deck erection.

Mr. Gray has called at this Office, and has further stated that the rudder head does not extend above the upper face of the quadrant arm.

In the circumstances the plan of quadrant has been amended to be of the required additional strength in lieu of fitting a spare tiller.

It is submitted that provided the arrangements be carried out as shown and amended on the plan, and to the satisfaction of the Surveyors, the same will merit approval.
