Lloyd's Register of Shipping,

71, Fenchurch Street, E.C. 3.

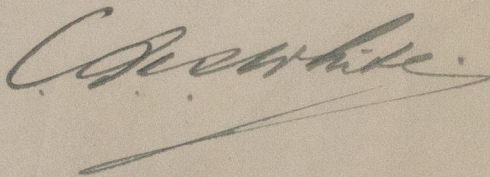

15th August, 1928.

Dear Mr. Shilston,

We are recording in the R.B. the full classification etc., of the steamer "ALPHACCA", and with reference to your first entry report on the machinery (No. 16654) we observe that the area of Firegrate in each boiler is not given on the report form in the case of the two single boilers which have a total heating surface of 5562 square feet. The area of Firegrate in the third boiler you give as 83 square feet and I shall be glad if you will kindly let me know the total area of the other two boilers in order to complete our records.

With kind regards,

Yours faithfully,

R. D. Shilston, Esq.,  
WEST HARTLEPOOL
