

"ARICA"

Extension of Watertight Bulkheads.

It is submitted one copy of the attached Report 10 and sketch be forwarded to the Marine 'A' Division, Empire Hotel, Blackpool.

NOTE: Although the tonnage opening has been closed, the draught is not in excess of that for a C.S.S. vessel. Accordingly ~~the~~ notation re bulkheads in the Register Book ~~should~~^{need not} be amended by the addition of a notation re the divisional watertight bulkheads in the tween decks, which are in fact additional to the Rule requirements (see Dr. Montgomerie's letter dated 9th Jan. 1941).
