Boiler Survey due June 1914

Special Survey No 3 due December 1915

Crew Shaft Survey due March 1916

Action in this case was deferred by the Committee in 1915 and February 1916, as the vessel was held up at sea.

The Gothenburg Surveyors subsequently wrote that the vessel was owned by Messrs. Clearkos Ksegakis of Braila, and in the circumstances a letter was addressed to that firm on 14 October 1916 enquiring what definite arrangements were proposed making to have the outstanding surveys held. No reply was received to this communication or to a letter subsequently addressed to the Braila Surveyor on the subject, and subsequent enquiries have also failed to elicit any reply.

Mr. Helyer recently arrived in this country from Rangoon and was asked to give any information he could re-fer to re-registered vessels now in the Black Sea. In his reply he stated that he is unable to give any information regarding the vessel "DALAND".
