*Boiler Survey due June 1914.*

Committee had this case before them on the 20th October  
 when they deferred action in the matter as the Owners stated  
 vessel was laid up at Sulina, and that as soon as she returned  
 North of Europe the requisite survey would take place.  
 Gothenburg Surveyors now write they have been informed  
 Owners that the vessel is still detained at Sulina and will  
 there as long as the Dardanelles is closed.
