

Received by Chief Ship Surveyor 14.6.02

Received from Chief Ship Surveyor

VESSEL'S NAME S.S. Marie Elisabeth Report Publ. No. 3375

The remarks of the Chief Ship Surveyor are desired on this case for the consideration of the Classing Committee.

("The endorsement to contain a succinct summary of any repairs that have been required and to show the cause or causes of such repairs, and also to bring out clearly any exceptional features in connection with the case, so that the Classing Committee may have all the salient points presented in the endorsement."—Extract from Sub-Committee's Report, 24/5/02.)

Nature of Survey Final entry

It is submitted that before this case receives the consideration of the Committee the Sunderland Surveyors should be informed that if the work which had to be done at their port as communicated to them by the Middlesbrough Surveyors, has been completed to their satisfaction they should report the same on form No.8 for the information of the Committee without delay as the classification certificates are urgently required by the Builders.
