ANNO

Sir

Re "ST Emmanuel"

I have forwarded report concerning  
his vessel's examination over dice.

The Admiralty has full control  
and I admit there is a difficulty  
getting work done but not impossible  
the owners endeavor to do so -  
in this case the stays might have been  
put in. Referring to Circular No 1293  
have always been ready to survey at  
any time during the war, and went  
down on a Sunday last time. The  
Belgian owners are taking every  
advantage under existing circumstances  
to ship class requirements.

Secretary  
London

I am Sir, your obedient servant
