H.M. Dockyard, Gibraltar,  
23rd January, 1920.

Dear Sir,

Will you be good enough to inform me where the Steamer "FACI" is now employed and to whom I should apply - if not to you - for particulars as to when it is likely the vessel will be available to undergo the Special Survey No. 2 prescribed by the Rules of the Society of Lloyd's Register of Shipping, which I understand from the Secretary of the Society above referred to, was due on the vessel at the end of September last.

It is also understood that the vessel's boiler became due for Special Annual Survey in February last.

I should greatly appreciate any information you can give me regarding the above matter.

I am, Dear Sir,

Yours faithfully,

Sgd..... C. E. Goodyear.  
Surveyor to Lloyd's Register.

Chef de Service des Douanes,  
a Casablanca.
