The S.S. No. 1 became due December, 1914, and the screw shaft in April last.

Several enquiries have been addressed to the Owners of this vessel, without result, and they were finally informed that the surveys must be carried out without delay if the steamer were to retain her class. No communication, however, has come to hand, and the Classing Committee, who had the case before them on Tuesday, the 11th instant, decided to expunge the class with a red line (1.16), indicating non-compliance with the Rules.
