Enclosure.

Your Ref: JWS/EAP/24/22.

28th April, 1937.

Dear Sirs,

M.V. "ATHELCHIEF".

I was duly favoured with your letter of the 19th instant, with enclosures, in further reference to the exhaust gas boiler proposed to be manufactured by Messrs. Abbott & Co. (Newark) Ltd. for the above vessel, and I note your remarks.

In reply, I have the pleasure to inform you that the plan of this boiler will be approved for a working pressure of 110 lb. per square inch, provided the boiler be constructed under the usual conditions of survey and testing.

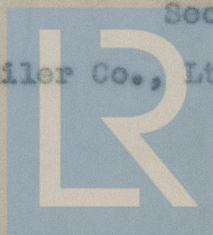

I return herewith one print from the finished tracing of Drawing No.3750.A.

I am, Dear Sirs,

Yours faithfully,

Secretary.
