Lloyd's Register of Shipping,  
Fenchurch St, E.C.3.

Dear Sir,

Clarkson Boiler for M.V. "Athelchief".

With further reference to your letter dated 13th.  
instant, approving of our Drg. 3750.A for a working pressure of  
100 lbs./square inch, we have to-day received a request from the  
owners of the vessel, worded as follows:-

"We presume that this boiler could stand a working  
pressure, if at all required, of 110 pounds, and  
shall be glad to have your advice."

Please let us have your opinion on this matter, as  
to whether you could allow this 10% increase in pressure under any  
circumstances.

For your information and records, we enclose two  
prints from the finished tracing of the above drawing 3750.A.

Yours faithfully,  
For THE CLARKSON THIMBLE TUBE BOILER CO. LTD.
